MANUFACTURING

WORK PREFERENCE:

Permanent or Contract position in manufacturing and scheduling systems involving database server and intranet or internet.

EDUCATION:

University of West Coast -- B.S. Business Administration 1976
University of East Coast -- M.S. Mathematics and Computer Science 1979

PROFESSIONAL EXPERIENCE:

Snow Plow Technology - Ski Lift, Ut
Senior Programmer/Analyst 01/94-Present
Senior Programmer 03/93-12/93

Increased both the efficiency and profitabiliity of the Mark III Snow Plow manufacturing system. This involved a total Quote to Cash system redesign. The technical platform

was IBM OS/MVS/XA combined with DB2.

CONSULTING:

Mesa Consulting Partners 02/92-02/93

Red River Consulting Group 05/91-02/92

BIG SKY HEALTH SYSTEMS

CICS/COBOL II Development

KZX MANUFACTURING

Brought IBM'S COPICS BATCH JCL up to project standards.

Researched and wrote the help desk and operations manual.

Developed run instructions for operations. Developed detailed programming specifications for purchase order system.

Technical platform (IMS, CICS & BATCH).

PLAINS STATES BLUE CROSS AND BLUE SHIELD

Created database test design and test data. Implemented test plan against conversion database. Designed, coded and unit tested 18 programs (IMS & DB2) to allow use of special test database.

FARM FED BANK, SAN MISSION, CA

Project Leader 08/89-04/91

Senior Systems Analyst 08/87-08/89

Redesigned and successfully implemented asynchronous collection of check clearing information. Technical platform (IMS, CICS & Batch)
